

# Call for presentations

## 5. European Industry and Research Exchange Impact of the pandemic on the future development and use of technical textiles

30 September 2021, 09h00 to 16h00 (CET), online-Event

Dear Madam or Sir,

it is our pleasure to invite you to the next **European meeting of experts for technical textiles**, products, processes, services, ideas and research. Due to ongoing COVID-19 travel and meeting restrictions we will meet only online.

More than 300 participants and 33 speakers from 16 countries had registered for the last two days event in March 2021. We expect that the new topic will attract even more European and international participants.

### **Impact of the pandemic on the future development and use of technical textiles**

COVID-19 has changed established supply chains, research and the **product development in teams** as well as the way we will communicate and work now and in future. The topic of the 5th EUTT is planned to cover **nonwovens** and **filtration textiles** as well as **digitization for research** and development work.

Anyone interested in sharing their experiences, ideas, or the latest technologies with the EUTT community is asked to send its speech proposal with the provided online form before 24.06.2021. The time for each speaker is 15 minutes with additional time for questions and answers. The PDF of the presentation will be distributed after the event to the attending participants.

The event language is English. Participation is free of charge.

Please **only** use the online form for presentation proposals:

<https://eutt.net/call-for-presentation>

Closing date for applications will be **Thursday 24th June 2021**

For additional enquiries, please contact [stefan.schmidt@ivgt.de](mailto:stefan.schmidt@ivgt.de).

---

Registration for the public audience will open at beginning of July 2021.
