

3. European industry and research exchange on Technical Textiles for Health, Medical and Sport Application on 8 and 9 October 2020, online event

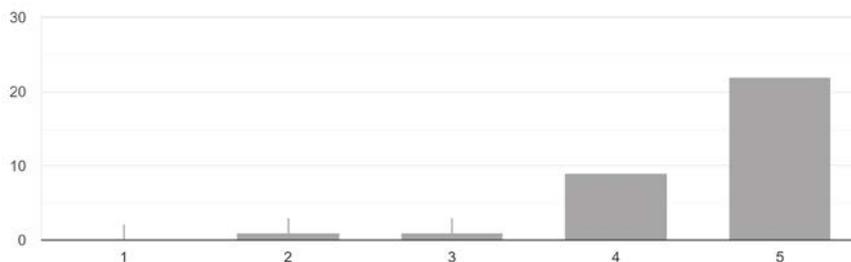

Dear Partner, Co-Organiser, Session Chairs and Speakers of this year's digital event,

thank you very much again for supporting us. After the exchange meeting we have asked you and the audience for a feedback. Here are the results.

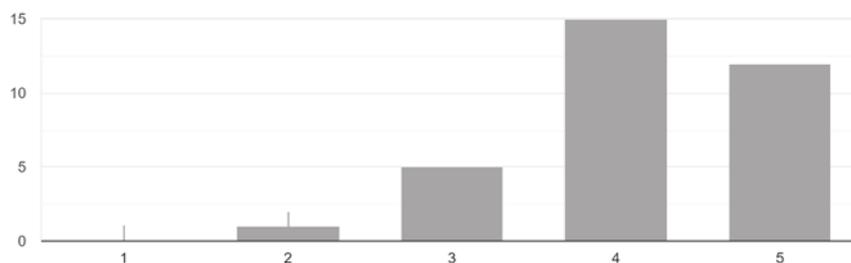

Registered individual persons: 246
Participants on day one: 145
Participants on day two: 114
Participants survey: 33

Answer range: 1 = Not at all
5 = Very much

How satisfied are you with the event?
33 Antworten

To what extent was the event useful and helpful in relation to your job?
33 Antworten

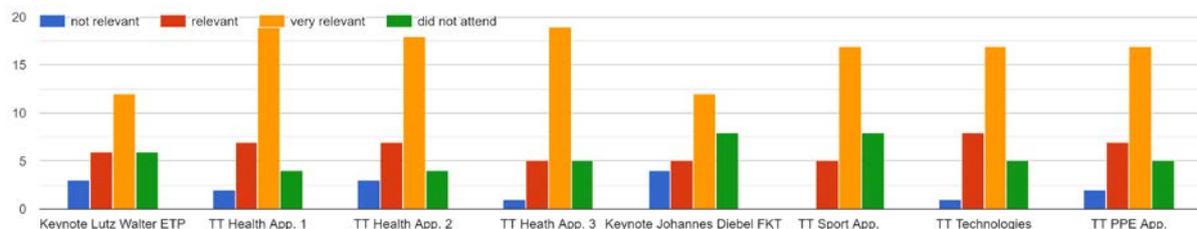

What is the most important thing you take away from this event for yourself?

23 Antworten

- making new relationship with textile experts and researchers
- Web conferences are not that bad
- New challenging innovation are in progress, the needed interdisciplinary links have been improved. COVID initiated the massive movemet forward. It was good oportunity to recognise potential partnrs for our running innovations.
- 73/5000 The knowledge of what is being done in the world in terms of smart textiles
- New ideas to new frontiers in research
- Impressions about the manifold opportunities and perspectives in the field of techical textiles
- I think that for me and my team is important have events like these because we are prošle from real practice and this is the wat to make conections with people from diferent universites and industries
- Having a general idea of what is going on in the research on new textiles
- awareness about research advancements and ideas for future possible applications
- Information about the development of the textile industry and material for my research
- The information of latest research
- to meet new companies working on smart textiles
- attempting "a conference at home" an be really fun and informative.
- Online joint events are very valuable.
- New info and idea
- contact researchers and laboratories in specific areas
- upcoming funding; trends for the future
- Current research and results in advanced textile technologies
- technical and technological advancements
- connection with different knowledge
- Research is versatile
- The most important thing for me was the overview of research activities on medical textiles across Europe and the explanations of upcoming funding opportunities on the part of the EU.
- Hope to meet face to face again next time

Which parts of the event were most relevant to you?

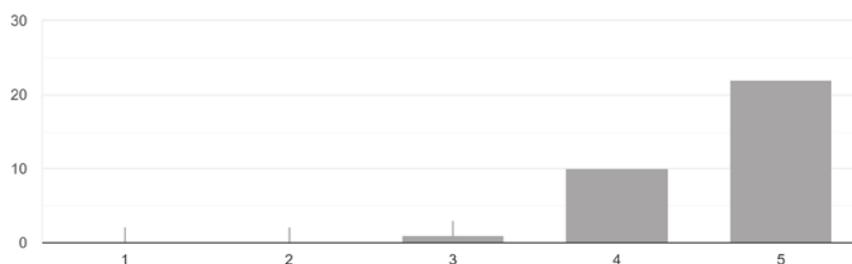

What should be the Topic for the 2021 event?

17 Antworten

- Can be almost the same - to see prospects within 1y, bio-based fibres (forest biomass and waste based from Scandic)
- Textiles with drug controlled release
- Smart textiles for all applications
- Sustainable Textile Solutions
- Cinection between the practice and science centers
- similar to the 2020 event
- Biotechnologies
- how sustainable smart textiles can be
- Maybe something recycling-related would be relevant?
- Smart textiles: the future world
- Sustainability
- Building Industry is very important because of environmental impact
- biodegradable textiles
- smart textiles
- TT TECHNOLOGIES
- Experiences in use of health applications
- Activities and new funding opportunities for recycling and sustainability along the entire textile chain

How satisfied are you with the overall organisation?

33 Antworten

Hope you enjoyed the two days as much as I did. All the best to everyone of you, and see you again next year for the 4th European Industry and Research Exchange.
